

COEO UCaaS

Leading-edge Voice,
Video & Collaboration

Cloud communications are the backbone of modern business. COEO's complete UCaaS platform offers seamless and secure business voice, video, and collaboration tools designed for your unique workflows. Empower your organization to connect from anywhere on any device and reach your goals.

Custom Built Business Communications

COEO is a complete cloud service provider and technology partner. Our UCaaS solutions, services, and support are customized to your business goals and unique needs, ensuring your ongoing success.

Solutions

COEO's UCaaS solutions include industry-leading business voice services and intuitive phone systems, plus our seamless and secure web, desktop, and mobile apps. Empower your organization with communications tools built for the cloud and overcoming modern business challenges.

Services

COEO provides dedicated services throughout the customer's journey. Our team conducts a business needs assessment and helps you transition your team to their new UCaaS solution. We provide your business with a dedicated Project Manager, Implementation Engineer, and Provisioning Specialist to ensure your success.

Support

COEO's ongoing support ensures your business receives personalized attention for your UCaaS technology. We provide a dedicated Client Technology Advisor, 24/7/365 customer and technical support, and regular system maintenance to ensure ongoing high-quality performance.

COEO UCaaS Benefits

- ✓ Unify your organization across multiple locations, a distributed workforce, and mobile users with seamless communication workflows and advanced features.
- ✓ Extend the capabilities of your business phone system with flexible web, desktop, and mobile apps, built-in analytics, and custom reporting features to enhance your overall productivity.
- ✓ Migrating to the COEO cloud is quick and easy with little to no start-up costs and no-fuss maintenance. Enjoy the support of a dedicated solution partner with COEO's hands on approach.
- ✓ Customize your UCaaS solutions to your exact requirements. COEO provides custom development and integration services to ensure your technology aligns with your goals.
