

WHY COEO?

COEO specializes in serving the Forgotten 5000; the growing enterprises overlooked by the big carriers and left struggling with subpar service and slow response times.

COEO stands out in the market by providing dedicated resources to assist your customers in building technical architecture, implementing, managing, and maintaining their telecom and network solutions.

Better Connections by Design

Eliminate Network Downtime

Redundant data centers and 99.999% guaranteed uptime SLAs keep the business running.

Protect Against Cyberattacks

Fully managed, scalable security services including **SASE** endpoint protection and **Managed Firewall**.

Improve Remote Work Environment

Empower teams with **secure managed connectivity, voice, chat, SMS & more**.

Optimize Bandwidth

Maximize bandwidth and network performance with **Secure SD-WAN** and custom networks tailored to business KPIs.

Boost Productivity and Cut Costs

Seamless **UCaaS/CCaaS** and custom **integrations for minimal cost**, maximize investments and team productivity.

Improve Customer Satisfaction

Enhance customer experiences with **COEO EmpowerUC™** and **COEO SentientCX™** platforms.
